LUCA FERRO

Frontend & Full-Stack Web Developer | Angular, TypeScript, Blazor, C#/.NET

luca.ferro2003@gmail.com (+39) 377 545 4100 Varese, Italy Linkedin GitHub

Portfolio

Professional Summary

Frontend & Full-Stack Web Developer with a **Higher Technical Institute Diploma in Web Development (EQF 5)**, specialized in developing modern user interfaces in **Angular**, **TypeScript**, and **Blazor (C#)**, as well as managing the backend stack and databases (**C#/.NET**, **REST APIs**, **PHP**, **SQL/MySQL**). Experienced in autonomously delivering end-to-end **B2B web platforms** and corporate portals in production, handling the entire application lifecycle: from **UX/UI design on Figma** to building **responsive and accessible components (WCAG 2.1 AA)**, through to server-side logic and data integration.

Work Experience

Full-Stack & Frontend Web Developer, *FM Group S.r.l.* 08/2026 – Present
Gallarate

- Fully autonomous **Full-Stack ownership (Frontend, Backend, and Database)** of the development and evolution of the **EasyWebParts B2B platform**, alongside managing the **Aftersaleshub** product portal.
- **EasyWebParts Frontend in Blazor (C#):** development of **over 10 reusable components**, interactive views, dynamic data tables, and modals to browse spare parts catalogs and technical documentation.
- **Backend (.NET / C#) & Database:** development of server-side logic, design and asynchronous consumption of **REST API endpoints (.NET)** for catalog data, data validation, and management of queries and structure on the **relational database**.
- **Aftersaleshub Portal in Angular & TypeScript:** development and maintenance of the web portal dedicated to showcasing EasyWebParts and capturing demo requests, improving **loading times, onboarding flows, and responsiveness**.
- **UI consistency & accessibility:** visual consistency, full keyboard navigation, and color contrasts **100% compliant with WCAG 2.1 AA guidelines**.

Web & Frontend Developer (Internship), *FM Group S.r.l.* 01/2026 – 05/2026
Gallarate

- **Corporate Web Portal (Figma + Angular):** UX/UI design (definition of user workflows and mockups on **Figma**) and end-to-end development from scratch in **Angular** of FM Group's institutional portal, featuring a responsive architecture **100% ready for multi-language support (i18n)**.
- **Full-Stack contact form development:** client-side asynchronous handling and validation of forms paired with backend service development in **PHP** for data processing and automated email notifications.
- **Frontend development of EasyWebParts in Blazor (C#):** integrated into the EasyWebParts B2B platform team at the conclusion of the first project, delivering the entire missing frontend layer and the application's UI components.

Frontend Web Developer (Internship), *Link IT Europe S.r.l.* 06/2025 – 07/2025
Buguggiate

- Designed and developed from scratch a modular **UI Component Library in Vue.js** consisting of **over 15 reusable components** (Accordion, Modal, Tab, Toast, Alert), using semantic **HTML5** and **CSS3/SASS in Claymorphism style**.
- Progressive enhancement approach and attention to accessibility (focus management, compliant contrasts, and full keyboard navigation) to ensure **100% cross-browser compatibility**.

Civil Service Volunteer, *Chamber of Commerce* 05/2023 – 05/2024
Varese

- • Support for local business services, digitization of administrative practices, and customer care.

Education & Training

Higher Technical Institute Diploma in Web Development (ITS - EQF 5), 10/2024 – 06/2026
Fondazione ITS Incom Busto Arsizio (VA)
Final mark: ***91/110***

- Two-year program of **2,000 hours** (classroom training and company internships), focused on the software development lifecycle.
- Study stack: **Frontend** (JavaScript, TypeScript, Angular, UX/UI methodologies), **OOP and Backend** (Java, Python, PHP), **Relational Databases** (MySQL), Git/GitHub, Docker fundamentals, code security, and prompt engineering.

Diploma in Maintenance and Technical Assistance, 09/2017 – 07/2022
Istituto Statale di Istruzione Superiore "Isaac Newton" Varese

- Specialization: Industrial equipment, systems, and technical services. Logical-mechanical skills, complex system diagnostics, and electrical engineering.

Technical Skills

Frontend & UI
Angular, TypeScript, JavaScript (ES6+), Blazor (C#), Vue.js, React, Semantic HTML5, CSS3/SASS, Responsive Design, Accessibility (WCAG 2.1 AA)

Database
MySQL, Relational SQL, NoSQL

Integration & Backend
C# / .NET, API REST, PHP, Java, Python

Tools & AI Tooling
Git, GitHub, VS Code, Visual Studio, Postman, Figma, npm, Docker, Claude API, Model Context Protocol (MCP)

Languages

- **Italian** — Native
- **English** — B2 (technical documentation and specifications reading)

Certifications

Anthropic: Claude API, Model Context Protocol (MCP) & Subagents
2026

Anthropic: Claude Code & Cloud Deployments (AWS Bedrock / GCP)
2026
