Portfolio

## Professional Profile

Frontend Developer with a two-year specialized ITS education (EQF 5) and a structured view of the entire software lifecycle. Specialized in building modular, responsive and accessible (WCAG 2.1 AA) Single Page Applications (SPAs) with **Angular** and **TypeScript**.
I combine a focus on UI/UX, accessibility and design systems with solid Full-Stack foundations: thanks to my experience with OOP architectures (Java, C#/.NET), REST APIs and relational databases (SQL), I ensure seamless client/server-side integration on B2B web platforms and production portals.

## Work Experience

**Full-Stack & Frontend Web Developer,** *FM Group S.r.l.* 08/2026 – Present
Gallarate

- *Hired after the internship, taking ownership of the full-stack development of the B2B platform EasyWebParts and the Aftersaleshub portal:*
- **Full-Stack Development of the B2B Platform (EasyWebParts):** Continuous evolution of the web platform for browsing spare-parts catalogs and documentation, covering both the frontend (dynamic views, interactive tables and 10+ reusable components in **Blazor / C#**) and backend integration with **REST API (.NET)** endpoints and **SQL** relational database query handling.
- **Frontend & Web Portal (Aftersaleshub):** Development and evolution of the portal in **Angular and TypeScript**, optimizing user onboarding flows, response times and overall responsiveness.
- **Accessibility & Quality:** Implementation of full keyboard navigation and color contrasts 100% compliant with the **WCAG 2.1 AA** guidelines.
- **Reliability & Maintenance:** Code refactoring, client/server validation of data flows and support for application troubleshooting in production.

**Web & Frontend Developer (Internship),** *FM Group S.r.l.* 01/2026 – 05/2026
Gallarate

- **Corporate Portal (Figma + Angular):** UX/UI design in **Figma** and from-scratch development in **Angular** of the corporate website, with a responsive architecture and multilingual (i18n) readiness.
- **Contact Form Backend:** Dynamic client-side validation and server-side processing through a dedicated **PHP** service for asynchronous email sending and request handling.
- **Onboarding onto the B2B Platform (EasyWebParts):** Supporting the already active project, contributing to the implementation of UI components, application views in **Blazor (C#)** and initial integrations with the existing application logic.

**Frontend Web Developer (Internship),** *Link IT Europe S.r.l.* 06/2025 – 07/2025
Buguggiate

- **UI Component Library:** Design and from-scratch development of a library of 15+ modular UI components (Accordion, Modal, Tab, Toast, Alert) in **Vue.js** and modern JavaScript.
- **Styling & Web Standards:** Building advanced Claymorphism-style interfaces with semantic HTML5 and **CSS3 / SASS**.
- **Accessibility & Cross-Browser:** Adoption of focus-management patterns, compliant color contrasts and cross-browser compatibility.

**Volunteer Operator – Universal Civil Service,** *Chamber of Commerce* 05/2023 – 05/2024
Varese

- Digitization of administrative procedures, data management and support for local business services.

## Education & Training

**Advanced Technician Diploma in Web Development (ITS – EQF 5),** 10/2024 – 06/2026
*Fondazione ITS Incom* Busto Arsizio (VA)
**Final grade: 91/110**

- Two-year, 2,000-hour professional training program focused on software engineering.
- *Training areas:* Frontend (JavaScript, TypeScript, Angular, UX/UI Design, WCAG 2.1 AA), OOP and Backend (Java, Python, PHP), relational databases (MySQL/SQL), Git/GitHub version control, Docker containerization (fundamentals) and Prompt Engineering applied to development.

**Diploma in Maintenance and Technical Assistance,** 09/2017 – 07/2022
*Istituto Statale di Istruzione Superiore "Isaac Newton"* Varese

- Specialization in industrial equipment, systems and technical services. Logical-diagnostic skills on hardware systems and electrical engineering.

## Technical Skills

**Frontend & UI**
Angular, TypeScript, JavaScript (ES6+), Blazor (C#), Vue.js, React, Semantic HTML5, CSS3/SASS, Responsive Design, Accessibility (WCAG 2.1 AA)

**Database**
MySQL, Relational SQL, NoSQL

**Integration & Backend**
C# / .NET, API REST, PHP, Java, Python

**Tools & AI Tooling**
Git, GitHub, VS Code, Visual Studio, Postman, Figma, npm, Docker, Claude API, Model Context Protocol (MCP)

## Languages

- **Italian** — Native speaker
- **English** — B2 level (fluent reading of technical documentation and architectural specifications, plus writing of release notes)

## Certifications

**Anthropic: Claude API, Model Context Protocol (MCP) & Subagents**
2026

**Anthropic: Claude Code & Cloud Deployments (AWS Bedrock / GCP)**
2026

## Personal Data Processing

I authorize the processing of the personal data contained in my curriculum vitae in accordance with Art. 13 of Italian Legislative Decree 196/2003 and Art. 13 of EU Regulation 2016/679 (GDPR).
