LUCA FERRO

Varese, Italy

Full-Stack & Frontend Web Developer | Angular · TypeScript · C#/.NET · Java · SQL

📧 luca.ferro2003@gmail.com 📱 (+39) 377 545 4100 🌐 Web Portfolio 💼 LinkedIn 💻 GitHub

PROFESSIONAL SUMMARY

Full-Stack & Frontend Web Developer experienced in building production B2B platforms and web portals. I combine creating fast, modern, and accessible user interfaces (Angular, TypeScript, WCAG 2.1 AA) with backend development in OOP architectures (C#/.NET, Java), REST APIs, and SQL databases, delivering new features end-to-end from prototype to deployment.

TECHNICAL SKILLS

Frontend & UI/UX:	Angular, TypeScript, JavaScript (ES6+), Blazor (C#), Vue.js, React, Semantic HTML5, CSS3/SASS, Responsive Design, Web Accessibility (WCAG 2.1 AA)
Backend & Database:	C# / .NET, Java, REST APIs, PHP, Python, Relational SQL, MySQL, NoSQL
Tools & AI Workflow:	Git, GitHub, Docker, Postman, Figma, VS Code, Visual Studio, npm, Claude API, Model Context Protocol (MCP)
Languages:	Italian (Native), English (B2 – Professional reading & technical documentation)

WORK EXPERIENCE

FM Group S.r.l.

Gallarate (VA), Italy

Full-Stack & Frontend Web Developer

Jan 2026 – Present

Hired full-time following successful internship performance (Jan 2026 – May 2026)

- **End-to-End B2B Platform Development (EasyWebParts):** Designed and deployed new features for a spare parts B2B catalog using Blazor/C#, .NET REST APIs, and SQL. Built 10+ reusable UI components, standardizing data tables and accelerating feature development.
- **Web Portal Optimization (Aftersaleshub):** Enhanced the Angular & TypeScript portal interface, streamlining user onboarding workflows and improving application responsiveness during data retrieval.
- **Corporate Site & Asynchronous Backend (Internship):** Designed UI/UX in Figma and built the corporate portal from scratch using Angular with i18n support; implemented a PHP backend service for dynamic validation and asynchronous contact request handling.
- **Accessibility & Maintenance:** Achieved 100% WCAG 2.1 AA compliance (full keyboard navigation and contrast ratios), performed code refactoring, and supported troubleshooting for client/server data flows in production.

Link IT Europe S.r.l.

Buguggiate (VA), Italy

Frontend Web Developer (Internship)

Jun 2025 – Jul 2025

- **Design System & UI Components:** Designed and built from scratch a library of 15+ modular UI components in Vue.js and modern JavaScript (Accordion, Modal, Tab, Toast, Alert) with Claymorphism styling, ensuring focus management, semantic HTML5, and cross-browser compatibility.

Italian National Civic Service – Chamber of Commerce

Varese, Italy

Administrative & Digital Support Volunteer

May 2023 – May 2024

- Digitized administrative procedures, managed enterprise databases, and provided technical support for local business digital services.

EDUCATION & CERTIFICATIONS

Higher Technical Diploma in Web Development (ITS – EQF Level 5) – Fondazione ITS Incom — Oct 2024 – Jun 2026
Grade: **91/110**. 2,000-hour intensive program in software engineering (Frontend Angular/TS, WCAG 2.1 AA, OOP Backend in Java/Python/PHP, SQL/MySQL databases, Git, Docker).

Anthropic Certifications (2026): Claude API, Model Context Protocol (MCP) & Subagents | Claude Code & Cloud Deployments (AWS Bedrock / GCP) — 2026

High School Diploma in Industrial & Technical Support – ISIS "Isaac Newton", Varese — Sep 2017 – Jul 2022
